# EFFICIENCY PARAMETERS

# Key Considerations for Digital Roadmap @ NPCL

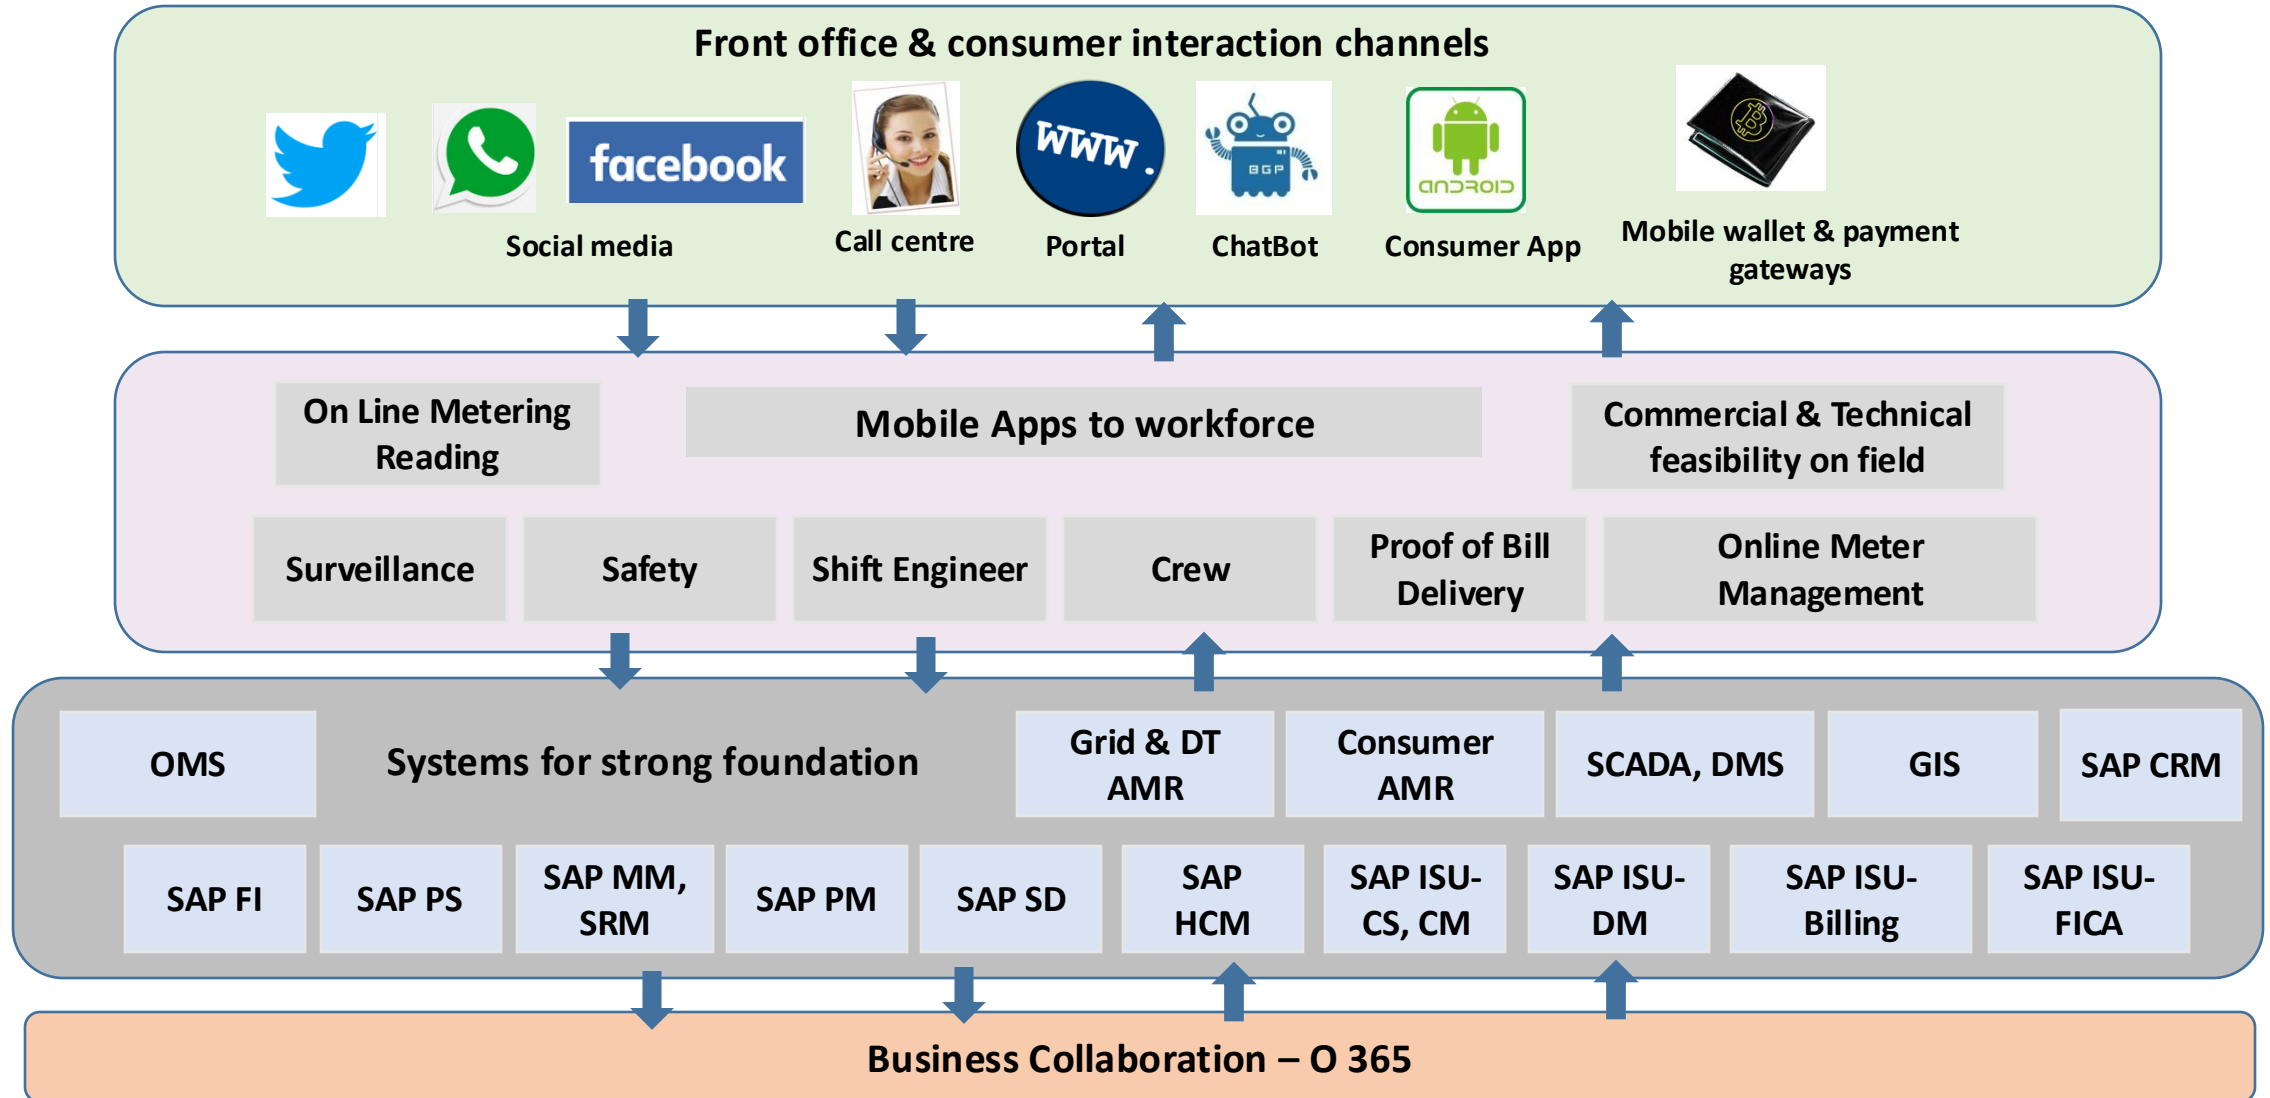

## Objective

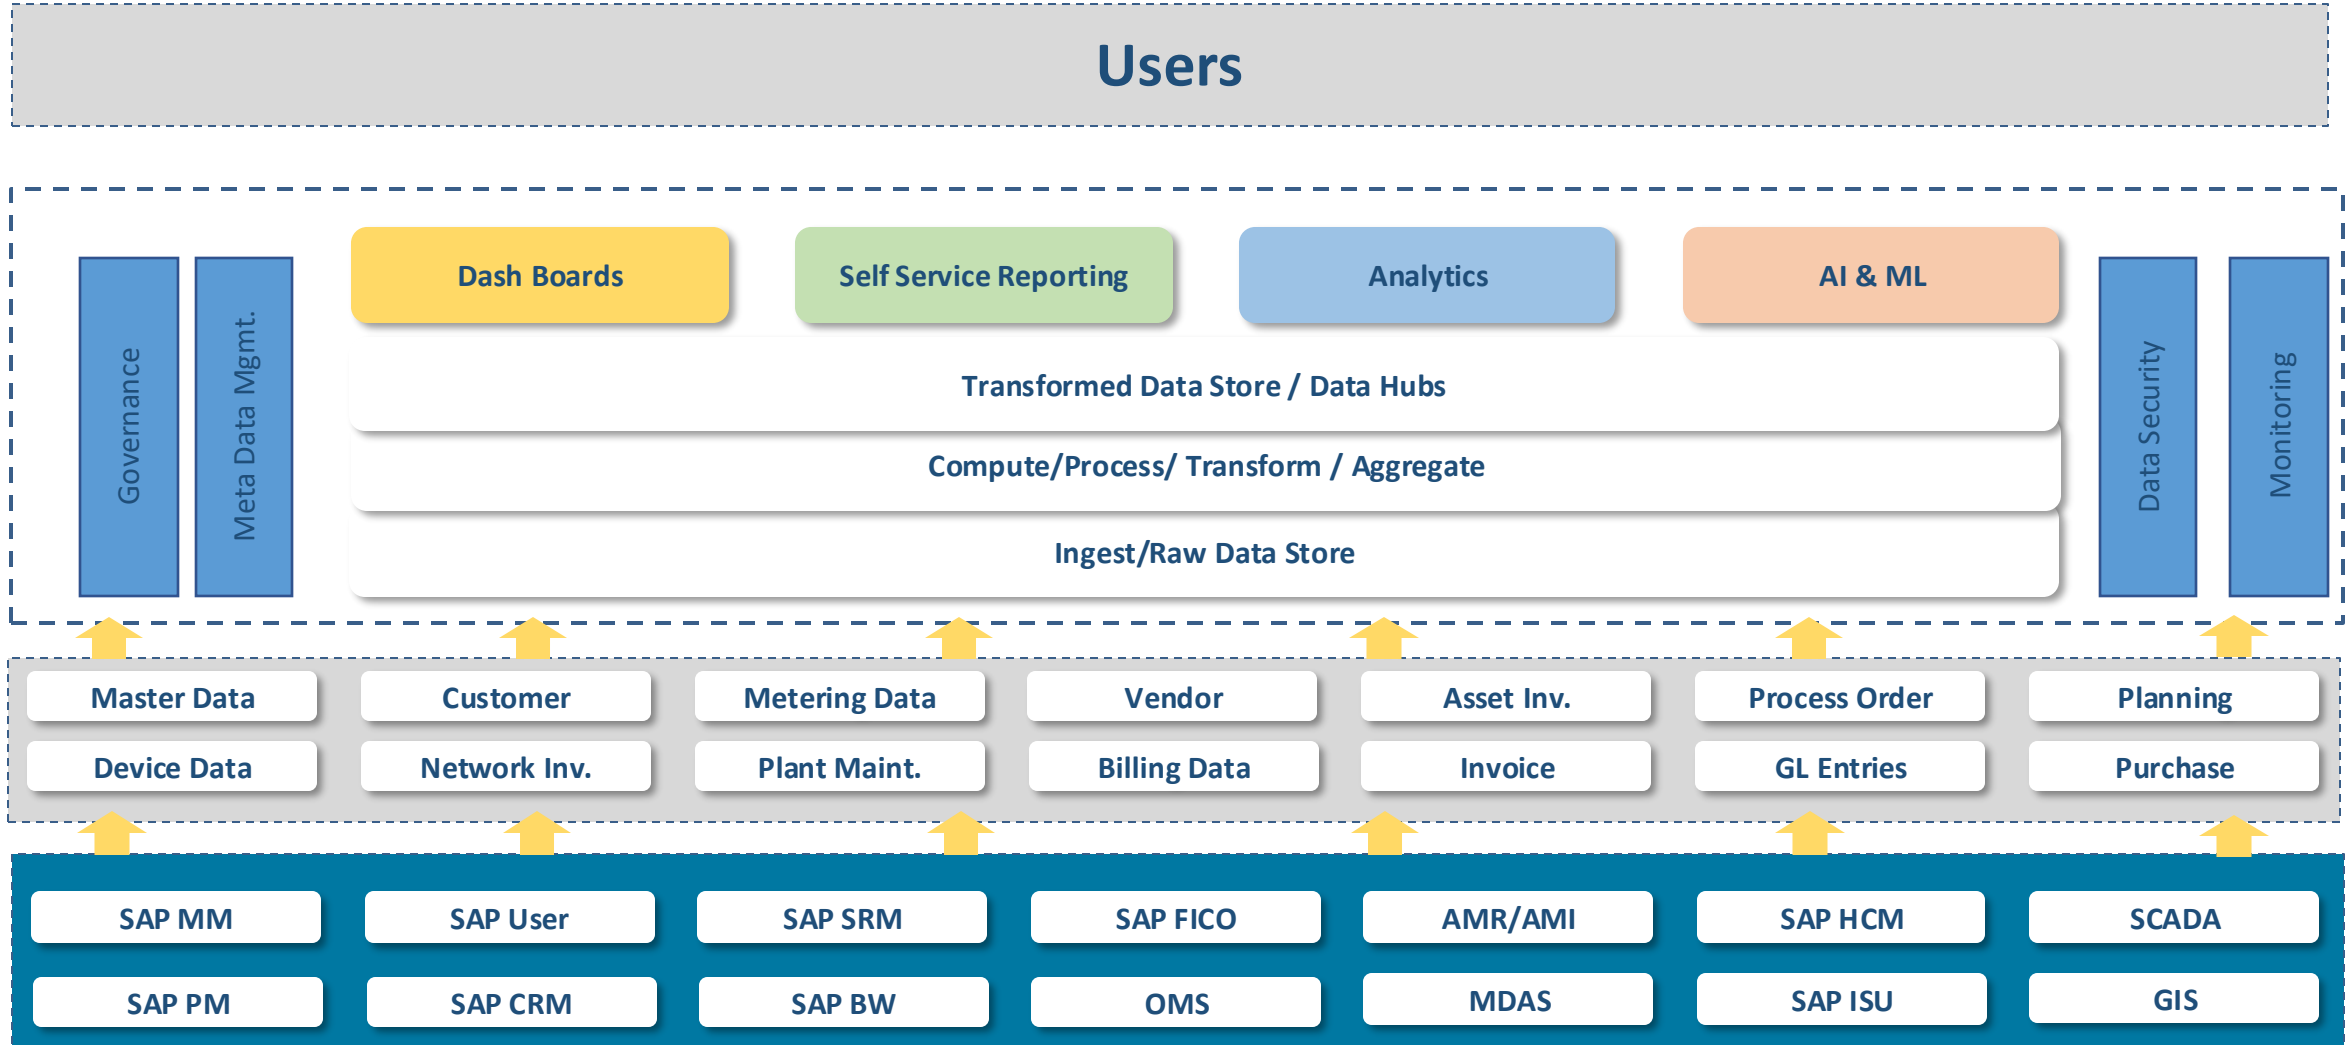

- Establish world class Digital Infrastructure
- Institutionalize Technology within the organization
- Build diverse people capabilities to support complex business needs
- Facilitate and support enhanced Technology Usage
- Ensure Information Security

## Strategy

- Implement Internationally accepted Enterprise wide applications
- Engage top management to build technology intensive culture
- Support rapid & high growth by ensuring Infrastructure availability
- Develop a team that would be a combination of end users & IT
- Impart appropriate training to the Workforce

## Customer Experience Transformation

- ❑ Customer 360 view
- ❑ Portal and Mobile App Revamping
- ❑ Voice Bot Implementation
- ❑ Revamping of Chat Bot using Gen AI
- ❑ Auto ticket Logging for Emails thru Gen AI

## Efficiency Improvements

- ❑ New Connection, Load Reduction, Category Conversion Process Automation
- ❑ Procure-to-Pay process Automation through RPA
- ❑ Meter Image Installation Anomalies detection thru Gen AI
- ❑ IT Coding Automation and Time reduction through Gen AI
- ❑ Legal & Finance Document Summarizations thru Gen AI

## Analytics, AI & ML, Gen AI, RPA

## Performance Improvement

- ❑ Payment Default Prediction Improvements
- ❑ Reliability of Supply Initiatives
- ❑ Revenue Assurance and Meter Data Analytics
- ❑ Customer Segmentation and Sentiment Analytics

## Decision Support Initiatives

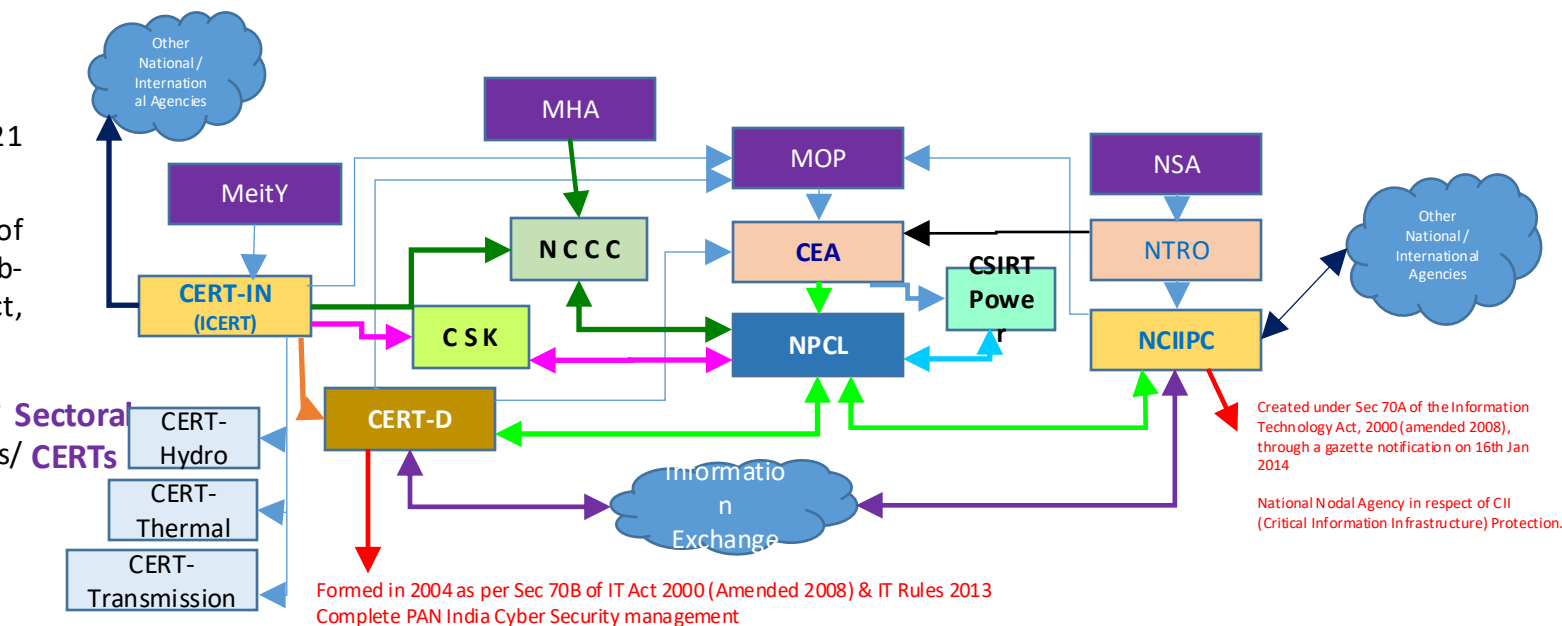

- ❑ Outage Dashboard
- ❑ Commercial Dashboard
- ❑ BE & CR Dashboard
- ❑ HOD's Dashboard
- ❑ Payment Default Prediction Dashboard
- ❑ PR - PO Tracking
- ❑ New Connections

## Compliances Necessary for Indian Utilities

- ❑ IT Act 2000 and its amendments (ITAA 2008)
- ❑ MOP (CEA) Guidelines for Cyber Security in Power Sector, 2021 (CEA-CH-13-12/4/2021-IT Division dated 07 Oct 2021)
- ❑ Directions dated 28th April, 2022 from CERT-In of Ministry of Electronic and Information Technology (MeitY) under sub-section (6) of section 70B of the Information Technology Act, 2000
- ❑ National Cyber Security Policy-2013 (as updated time to time).
- ❑ National Critical Information Center other security guidelines/ advisory issued by MeitY.
- ❑ NCIIPC Cyber security guidelines v 2.0 (16 Jun,2015)
- ❑ ISO 27002:2022 along with ISO27019 standards and controls.

## Cyber Reporting to Cyber Agencies

## Journey so far

- ❑ NPCL certified with ISO 27001:2005 standard by The British Standards Institution (BSI) in 2011
- ❑ Upgraded to ISO 27001:2013 standard in year 2015
- ❑ NPCL further upgraded the ISO 27001 – 2022 standards in 2024
- ❑ NPCL has been going through yearly audit for ISO 27001 standard
- ❑ NPCL has its own Information Security Division (ISD) to manage all its Cyber and Information Security related compliances
- ❑ A Cross-functional team has also been constituted in 2020 with representation from multiple Departments to drive adoption of necessary practices and technologies under the stewardship of the CISO

**THANK YOU**
