TODAY

The Consumer has to have multiple (digital) relationship with their relevant utility services (including their water, gas and electricity suppliers)

TOMORROW

The Consumer has one single (digital) relationship with all relevant utility services – the new Utility platform will be the Amazon equivalent

EMBRACING THE CONNECTED MINDSET

Everything in One EXperience

Focusing on deconstructing organizational silos and fostering collaborative synergy among a diverse set of stakeholders, encompassing customers, field workers, and utilities. This transformative approach is engineered to yield amplified operational efficiency, elevated levels of customer satisfaction, and an augmented capacity for adaptability.

The Evolution of the **UTILITY CONSUMER**

Platform Innovation + Evolution

BUILDING THE INTELLIGENT CONNECTED CX+WX+IX+BX+BITs+GX PEOPLE CENTRIC

ELECTRIC, GAS, SOLAR, AND WATER DIGITAL ECOSYSTEM
Powered by AI / ML

Immersive **EX**perience for **SUSTAINABILITY**

At the heart of our mission lies a steadfast commitment to building platforms that promote sustainability and empower billions of people on our planet. We believe that sustainable living is not just a choice, but a responsibility we all share in safeguarding our planet's future.

Comprehensive Insights:

Our platforms provide users with deep insights into their energy and water consumption patterns. By understanding their usage, individuals can make informed decisions to reduce waste and optimize resources.

Actionable Recommendations:

We don't stop at data. Our systems leverage advanced technologies to offer tailored recommendations for energy-efficient practices and water-saving habits, ensuring tangible, positive impact.

Accessible Education:

Knowledge is power. We equip users with educational resources, from articles to interactive tools, to empower them with the know-how to make sustainable choices in their daily lives.

Community Engagement:

Sustainability is a collective effort. Our platforms foster a vibrant community of like-minded individuals, where shared experiences and achievements inspire each other towards a greener, more sustainable future.

Seamless Integration:

Our technologies seamlessly integrate with everyday life. From smart home systems to renewable energy sources, we make sustainable living practical, convenient, and effective.

Continuous Innovation:

We are committed to staying at the forefront of technological advancements that support sustainability. By constantly evolving our platforms, we ensure they remain as effective tools in our shared mission.

SEW's Industry's Leading AI Platforms

CX

**Customer
Experience**

SmartCX enables an omnichannel consumer experience for energy and water providers powered by AI / ML to provide powerful consumer insights with predictive analytics

WX

**Workforce
Experience**

Smart WX helps in intelligently managing the field operations to deliver seamless experience for the end consumers and operational efficiency for providers

IX

**Intelligent
Experience**

SmartIX empowers energy and water providers to discover consumer and workforce insights across multiple data streams using AI/ML-driven analytics platform

BX

**Business
Experience**

SEW's BX Platform provides a comprehensive and fully integrated solution that simplifies utilities business operations.

GX

**Grid
Exchange**

SmartGX by SEW, an AI and blockchain-based platform that enables customers to participate in an energy marketplace with their utility.

BITs

**Business
Integration Tech**

Smart BIST is an end-to-end Business Integration Technology platform designed to seamlessly orchestrate and optimize business processes for utilities.

PURPOSE

What is our positive impact in Bharat and the world

VISION

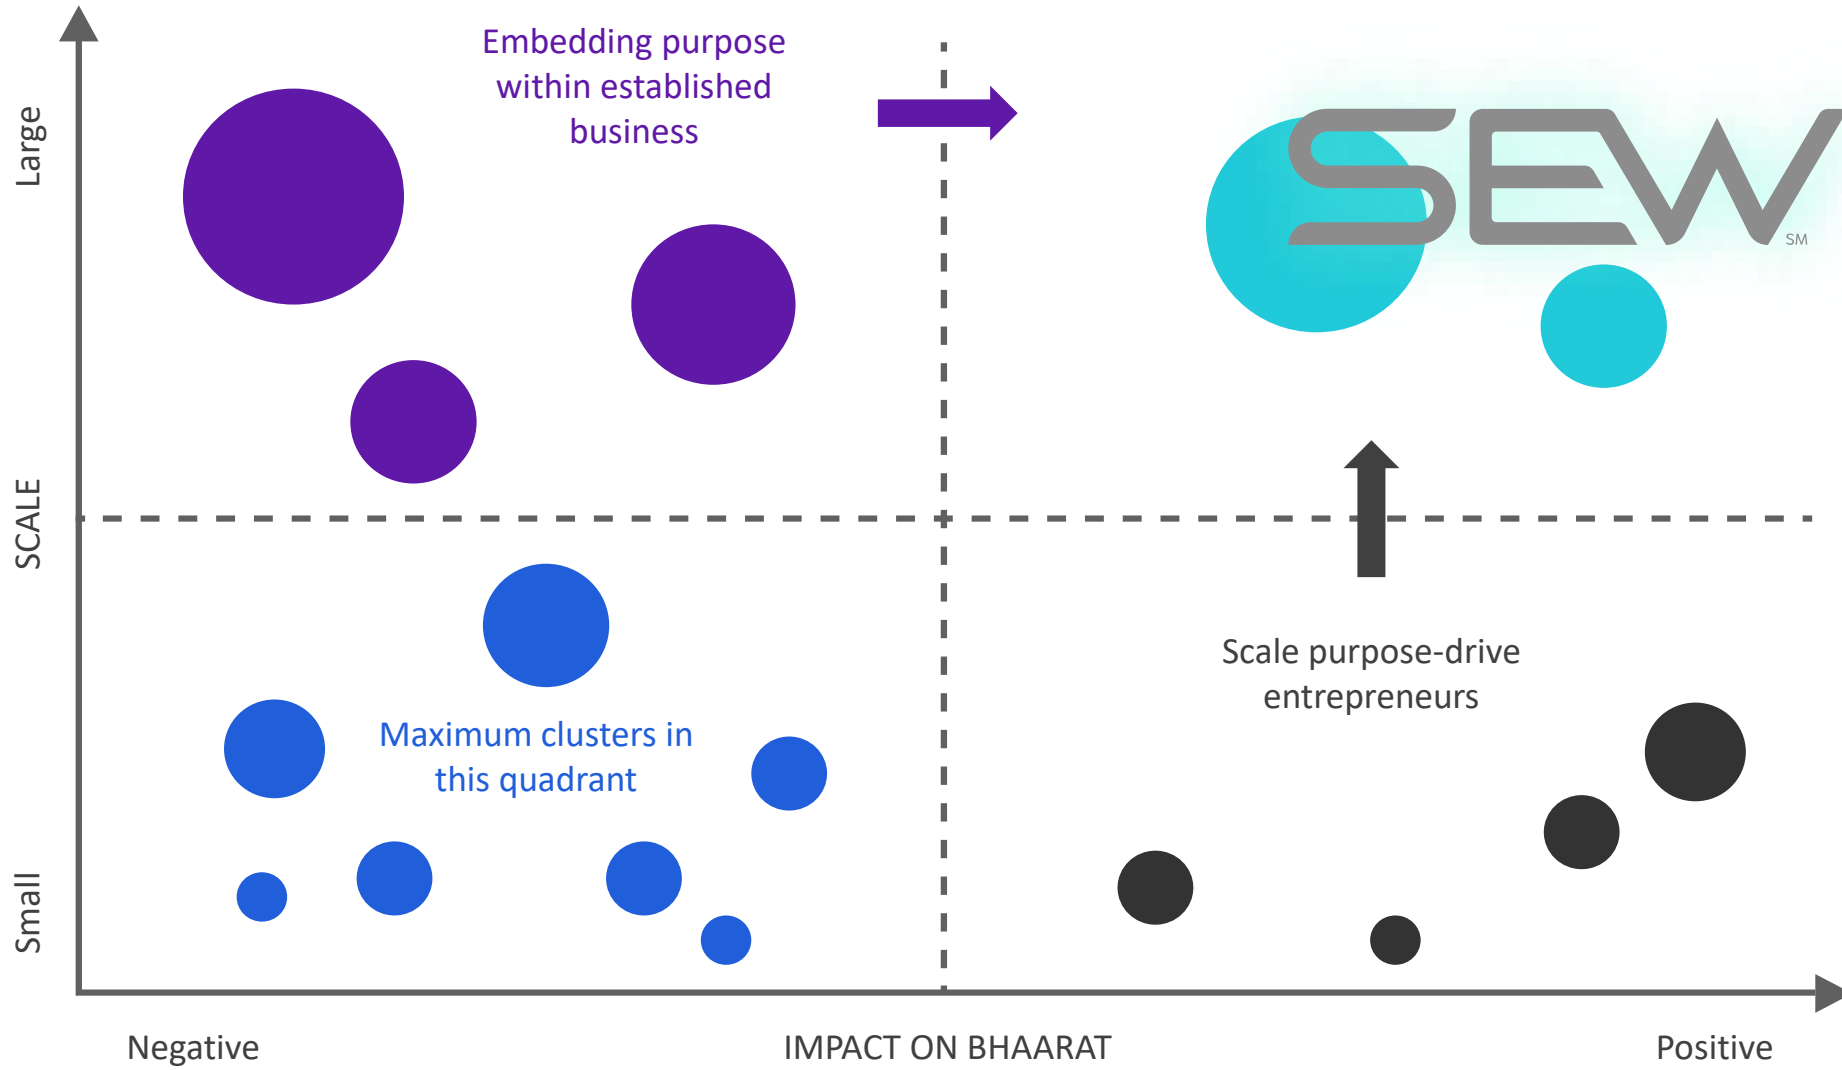

Where are we going

MISSION

How we are getting there

CORPORATE SOCIAL RESPONSIBILITY

How do we help to protect Bharat and the world

Committed to **SUSTAINABILITY** through Digitalization

We are building strategies, platforms and partnerships that put the power of technology to work on Digital Bharat

Improve energy savings and water conservation

Enroll in saving programs

Reduce gas/ carbon emissions

Reduce our customers' carbon footprint by more than 1 gigaton

Build smarter infrastructure, grid resiliency and advance decarbonization

Data-based insights and intelligent decisions

Accelerate the adoption of Solar, EV and DER programs

30+ projects executed for clients facilitating climate change actions

Engage and empower our people

Accessible, inclusive & innovative

Foster a culture of service among our global communities

Sustainable ecosystems

Ensure technology accessibility and equity for all

For ALL people

Establish a new governance structure for increased accountability

Establish and increase trust of clients, partners and employees

Embed security and privacy by design across our products, services and operations

Keep customers' data safe and secure

SEWSM

Empowering Innovation

Through Integrated Technology

Connected Platforms Where
Everything Comes Together

Our Priorities

CONTINUE

to be the **Global Innovator, Influencer, #1 Technology Provider** in the Energy and Utilities Industry

ENHANCE

the **Customer and Workforce Experience** with New Innovations

LEAD

the **clean energy and net zero** transition goals

DRIVE

Energy and Water Savings through Leading CX, WX, IX Platform

EMPOWER

communities on a **Net Zero Journey**, and **reduce carbon emissions** with **eMobility Solutions**

ENGAGE, EDUCATE, EMPOWER

4Bn+ citizens by 2025 with native mobile and web channels.

STRENGTHEN

our vision, strategy and our purpose to **shape the energy and water future**

Seamless and **Connected** **EX**perience

Make customer interactions Intelligent and Connected across channels, journeys and touchpoints. The platform is the central hub to address 1000s of use cases for all customer segments- so that we effectively **Engage. Educate. Empower.**

AI & ML

- Predictive Analytics & Maintenance
- Load Forecasting
- Equitable Energy Access
- Dynamic Payment Plans
- Voice Assistants
- Disaster Preparedness Plans
- Transparent Customer Engagement\
- Energy Auditing
- Fraud Detection
