INDIA SMART UTILITY WEEK (ISUW) 2023

India is spearheading an ambitious mission on energy transition and is the only country amongst the major economies that has already achieved the 2030 targets under the Paris Agreement. India has now set a new target of 500 GW of renewable energy by 2030; and is working on innovative policies and programs for holistic transformation to decarbonize the energy, transport, manufacturing and other sectors.

Since inception in 2011, India Smart Grid Forum (ISGF) has been spearheading the movement towards digitalization of utilities in India. Highly disruptive black swan events like Covid-19 presented never before opportunities for innovation and transformation with profound implications in the long term. In the aftermath of Covid-19, digital platforms have become the coveted assets for utilities in their business continuity and resiliency. Government of India has launched a new program that mandates smart meters for 250 million+ electricity customers in the country. This is going to create data driven smart utilities which will open up new business opportunities for organizations providing tools and services to host and manage the humungous amounts of data utilities are expected to generate in the near future. Utilities in India have embarked on the digitalization drive and embracing emerging technologies such as Artificial Intelligence (AI), Machine Learning (ML), Robotics, Blockchain etc.

ISGF has been organising its flagship annual event, India Smart Utility Week (ISUW) since 2015 and it is considered as one of the top five international events on Smart Grids, Electric Mobility and Smart Cities. All the previous editions of ISUW (initially known as India Smart Grid Week – ISGW) were huge success that attracted the attention and participation of the who's-who amongst top-notch thinkers and utility leaders from around the globe. Technology Companies, Regulators, Policy Makers, Government Officials and Senior Officers from Electricity, Water and Gas Utilities from 50+ countries participated every year in the past editions of ISUW. Due to COVID-19, ISUW 2021 and ISUW 2022 were conducted on 3D virtual platforms. ISUW 2022 was attended by over 2744 delegates from 61 countries and addressed by 396 eminent speakers

ABOUT ISUW 2023

India Smart Utility Week (ISUW) 2023 is scheduled from 01 – 04 March 2023 in New Delhi as an International Conference and Exhibition on Smart Energy and Smart Mobility. ISUW 2023 will include tutorials, plenaries, interactive workshops, keynotes, technical sessions, technical paper presentations and technical tours. Bi-lateral Smart Grid workshops with EU, USA, Germany and Sweden are also being planned. Seventh edition of ISGF Innovation Awards will be organised as part of ISUW 2023 on 03 March 2023.

For Partnership, Exhibition and Participation queries, please write to us at isuw@isuw.in. For more details about ISUW 2023, kindly visit www.isuw.in.

ISGF INNOVATION AWARDS: 03 March 2023

ISUW 2022

KEY HIGHLIGHTS

2744 Participants

61 Countries

5 Supporting Ministries

19 Key Partners

19 Supporting Media Partners

13 Supporting Organizations

24 Exhibitors

396 Speakers

3 Focused Workshops

8 Thematic Sessions

2 Special Plenary Sessions

3 Bi-lateral Workshops

3 Inspirational Talks by Celebrities

4 Seminars

5 Roundtables

740 Participants from Utilities

58 Technical Papers Published

25 Technical Papers Presented

39 Winners Amongst 12 Award Categories of ISGF Innovation Awards

2 Yoga sessions

ISUW 2023 | CONFERENCE THEMES

INDIA @ 100 in 2047: Vision for the Indian Power System

Energy Storage Systems Applications and Business Cases

Blockchain, Web 3.0 and Metaverse for Utilities

Super Grids for Energy Transition and Energy Security

250 Million Smart Meters in India Rollout Strategies and Business Models

Artificial intelligence, Machine Learning and Robotics for Utilities

Evolving Architecture of the 21st Century Grid with Two-Way Power Flows

Cyber Security for the Digitalized Grids

5G Rollout and its Impact for Smart Grid Technologies

Climate Proofing of Future Grids and Advanced Materials for Extreme Weather Events

Electric Mobility and Grid Integrated Vehicles (GIV)

Emerging Opportunities for Utilities: Electric Cooking, Urban Air Mobility, District Cooling Systems

Digitalization of Utilities, Digital Twins and Digitalization Roadmaps

Grid Interactive Buildings and Campuses

Smart Water Distribution

Power System Flexibility

Customer Engagement Strategies and Social Media for Utilities: Customer Portal, Chatbot, Voicebot

Smart City Gas Distribution

Utilities Integration, New Services and Revenue Streams for Utilities

Regulations for the Evolving "Green Grid" of the 21st Century

ISUW 2023 | BILATERAL WORKSHOPS

12th EU-INDIA
Smart Grid Workshop*

9th US-INDIA
Smart Grid Workshop*

7th SWEDEN-INDIA
Smart Grid Workshop*

2nd GERMANY-INDIA
Smart Grid Workshop*

ISUW 2023 | ROUNDTABLES AND WORKSHOPS

IEC – IEEE World Smart Energy
Standardization Coordination
Workshop*

Workshop on Hotline
Maintenance*

Roundtable on Hydrogen
Mission*

Roundtable on Interconnection
of Regional Grids in Asia*

ISUW 2022 | PARTICIPATED COUNTRIES

*program under finalization
